## THE SOUTH GREETSTHE EDUCATORS

SOUTHERN ASSOCIATION OF TEACHERS IN FLORIDA.

Open House in Jacksonville for the Gathering Host—Prominent Speakers, Pedagogues, Essayists and Historians Are Now Assembled in Quaint Old Southern City for Annual Meeting.

Jacksonville, Fla., Dec. 29.—Jacksonville is keeping open house in honor of the scores of distinguished educators who are here from far and near to attend the annual convention of the Southern Educational Association and also the meeting of the Florida State Teachers' Association. The visitors began to put in an appearance yesterday and at noon today the register in charge of Secretary R. J. Tighe indicated that the attendance would establish a new high record for the association.

The convention promises to be notable not only for the large number but also for the high standing of the participants. Every branch of educational activity is represented, from the humble rural school to the state departments of education and the highest universities and colleges. The states represented include Alabama, Georgia, Florida, Mississippi, Louisiana, Texas, Arkansas, Tennessee, Missouri, Kentucky, West Virginia, Maryland, Virginia and the Carolinas.

The officers in charge of the convention, in addition to the directors from each state, are: President, Walter B. Hill, LL. D., chancellor of the University of Georgia; vice-president, Francis P. Venable, LL. D., president of the University of North Carolina; treasurer, E. P. Burns, member of board of education, Atlanta, Ga.; secretary, R. J. Tighe, superintendent of schools, Asheville, N. C.

The general sessions of the convention will be held in the board of trade auditorium, and the conferences of the several departments in the Windsor hotel assembly room, the court house, and the auditorium of the Woman's club.

At the formal opening of the convention this evening the visitors will be welcomed on behalf of the state by Governor-elect Broward, and on behalf of the city by Hon. D. U. Fletcher, president of the board of education. After these formalities have been disposed of the association will listen to the address of President Hill, which will be the feature of the session. The regular program of papers, addresses and discussions will be taken up tomorrow morning and continued until the end of the week.

### GOVERNMENT BUYS LINOTYPES.

Will Set the Government Record With Typesetting Machines.

The type for the Congressional Record, the daily report of the two houses, is now, for the first time, being set by typesetting machines, which were introduced into the department printing office last summer.

It is generally conceded that the new system has resulted in an improvement in the appearance of the Record, due to wider spacing between the words, which gives the pages a cleaner appearance.

Typesetting machines were approved by the International Typographical Union years ago, but the political "pull" of the government printers has until now resulted in keeping them out of the big government print shop. Their introduction will cut down the force of compositors considerably.
